1) When tests carried out pursuant to this Bylaw show that the sewage from any commercial or industrial premises has a biochemical oxygen demand greater than three hundred milligrams per litre or suspended solids in excess of three hundred milligrams per litre, then the owner of the premises shall be subject to a surcharge in addition to the sewer charge

2) The Sewer Service Surcharge shall be determined in cents per cubic metre of sewage discharged into the sewage system and shall be levied in accordance with the formula set out below:

- The formula for determining the surcharge to be levied is : $R = (0.0722 * B) + (0.0808 * S) + (0.0832 * G)$, where
- "R" means rate in cents per cubic meter
- "B" means the amount in milligrams per litre by which the biochemical oxygen demand of the sewage tested exceeds three hundred milligrams per litre'
- "S" means the amount in milligrams per litre by which the suspended solids of the sewage exceeds three hundred milligrams per litre; and
- "G" means the amount expressed in milligrams per litre by which the grease content of the sewage tested exceeds one hundred milligrams per litre

3) For the purpose of establishing the surcharge on a bi-monthly basis the rate established above (R) is to be multiplied by the number of cubic metres of water consumed for the billing period on the
