

## COMMUNITY LIFE POLICY AMENDMENT

### Issue

Amendments to Community Life Policy PS-A-2.2 are provided to Council for approval.

### Motion Proposed by Administration

That amendments to Community Life Policy PS-A-2.2 be approved as presented.

### Report, Analysis and Financial Implications

An update to the current “fire response” service level in the planning framework is needed to provide incident wide coverage and accuracy on where this service level is provided.

Administration is recommending the replacement of the current “fire response” service level with a “fire and rescue incident response”. With this new definition clarity is provided on where this service level applies and that all incident response types are included.
