

Good Afternoon,

On behalf of the Centre for Living Organ Donation, I would like to formally invite you to light up your local landmarks GREEN for Living Donation week, September 8-14, 2024!

For those in need of a kidney or liver transplant, living organ donation may offer a shorter pathway to better health - providing faster access to transplant and a quicker recovery. Not enough Canadians know about this lifesaving option.

The Centre for Living Organ Donation was created by the Ajmera Transplant Centre in 2018 to improve access to living organ donation for people who need a life-saving kidney or liver transplant and those who want to give a transformative gift of life. The Ajmera Transplant Centre at the University Health Network (UHN) is one of the largest organ transplant programs in North America. We also partner with SickKids on the largest pediatric living donor transplant program in Canada.

The Centre for Living Organ Donation raises awareness, provides support, promotes research and offers hope to thousands of people across Canada who are waiting for a kidney or liver transplant - and everyone who wants to be part of their future.

Living Donation Week raises awareness for living organ donation and pays tribute to the life-saving gifts of living organ donors, and the incredible resilience of transplant recipients. You can view our program for 2024 and recordings from 2023 at [www.livingdonationweek.ca](http://www.livingdonationweek.ca)

If you have additional questions, please feel free to reach out.  
Thank you for your consideration.
