

COMMUNITY SAFETY 2024 SECOND QUARTER REPORT

Issue

The Community Safety 2024 Second Quarter Report is provided to Council for information.

Motion Proposed by Administration

That the Community Safety 2024 Second Quarter Report be received as information.

Report, Analysis and Financial Implications

An efficient approach to the reporting from the three branches of Community Safety (formerly Protective Services) is now in effect and will be provided to Council as information on a quarterly basis.

Data in this report is shared from Okotoks Fire & Rescue, Okotoks Municipal Enforcement, and the Okotoks RCMP.

A key consideration is the timing of the reporting. While both Fire & Rescue and Municipal Enforcement follow the calendar year and as such, are sharing their Quarter #2 reports, the RCMP follows the financial year and as such, will share their Quarter #1 report.

Strategic Plan Goals

CAO Comments

This reporting is important to show service levels being delivered within the Community Safety area including RCMP, municipal enforcement and fire and rescue services. The emphasis on speeding and its impact on public safety has been the key community priority

and the reporting helps show how this priority is being operationalized into action by Community Safety teams.
