Subject: Municipal Funding/Donations in Kind

Comment or question:

Hello,

We at Percy Pegler Parent Council have been designing, planning, and now begun fundraising for the playgrounds at Percy Pegler. I would like to present to Council Budgets we are hoping can be donated as well as some in Kind labour that will maximize the towns donation receipt with minimize the cash output. Our playground is under revaluation starting with the swings, which is complete as of September 30,2024. We are beginning the preperation to order, remove and rebuild the another section with a tower unit. Our 3rd section for 2026 is a fully inclusive playground at a gold seal level. This is really important for our town, as the Percy Pegler Playground is shared with the Rec Center patrons. It receives more use then any other playground in Okotoks. Our Playground and land improvement proposals came in at \$800K and we are working hard to reach out to Parents and Patrons of Okotoks to help with this massive undertaking. Please Let me have a chance to present the playgrounds and the positive impact on the community. As well as caution against any delays beyond this timeline.
