April 2, 2026

To whom it may concern,

On behalf of HAE Canada, I am writing to request that the lights of the Okotoks Municipal Centre be illuminated in purple on May 16, 2025, to recognize international HAE day :-).

HAE day :-) is an annual event observed every May 16th that brings together the global Hereditary Angioedema (HAE) community to raise awareness about this rare condition among the public, healthcare professionals, policymakers, and industry leaders. Our goal is to foster earlier and more accurate diagnoses, improve care, and ultimately enhance the quality of life for individuals living with HAE. We believe illuminating the Toronto Sign lights in purple will help draw attention to this important cause. We plan to promote the Toronto sign and this initiative through our social media channels and in correspondence with our community members, ensuring visibility for this meaningful gesture.

Event Details:

- Date: May 16, 2026

Thank you for considering this request.

We hope you will support HAE day :-) and help us raise awareness of Hereditary Angioedema in a meaningful way.

Sincerely,
Kathleen Nielsen
