

RESPONSE TO COUNCILLOR INQUIRY / SUGGESTION

COUNCILLOR LANG

Councillor Lang provided information that the wayfinding signs on 32nd Street provide information for those travelling northbound, and inquired if there would be a sign for those travelling southbound.

Estimated Administrative Time to Respond

Under 4 hours (no motion required)

Over 4 hours (motion required) Estimated Hours: n/a

Motion

Response

Installation of phase 3 of the wayfinding signs was to be completed during the week of March 11 to 15. However, the installation crew was called away before completing this phase. The crew returned and installed the remaining signs, including the one along 32nd Street for southbound travellers sometime during the week of March 18 to 22.

The VD1 #14 sign was installed after Councillor Lang identified it as missing. The VD1#14 sign is now installed on southbound 32nd Street and provides information for southbound travellers. For safety reasons the signs are not designed to be double-sided.

See attached photo of the VD1 #14 sign.
